

RESTORE VOTER CHOICE!

restorevoterchoice.org

“**Proposition 14**,” which passed in 2010, created the “**Top Two primary**.” Presented to voters as a way to “increase the right to participate in primaries,” what it actually does is:

- **Reduce # of choices** in November elections to **2**. This means at most 2 parties; in many places, **only ONE** party will be on the ballot.
- Eliminate the right to write in candidates in general elections. So if you don’t like the top two, you don’t get a vote.
- Drastically decrease the number of small (non-rich) party candidates who can afford to file and run for office.
- Force small (non-rich) parties off the ballot by eliminating their ability to win 2% in the general election to maintain ballot status.

Disenfranchised voters, candidates and political parties are suing to overturn Prop 14 on Constitutional grounds.

- I support the right of voters to a full range of choices on the general election ballot.
- I wish to donate \$_____ toward the legal expenses of this Constitutional challenge to Prop 14.
